

Parent Masterclass

Empowering parents to reinforce study skills at home

Parent learning opportunity

You are invited to attend a Parent Masterclass that will be held on the afternoon of Tuesday 25th July at 3pm. Elevate Education has been providing students at Aurora with a range of study skills, exam techniques and organisational tips over the past few months. We would like to consolidate this information with a parent masterclass.

- Topic:** **Empowering parents to reinforce study skills at home**
A senior presenter will share Elevate Education's key research and skills, plus answer questions so parents can help their children navigate their final years of school.
- Date:** Tuesday, 25 July 2017
- Time:** 3:00 – 4:00pm
- Cost:** Nil
- Registration:** Register online at <http://www.aurora.nsw.edu.au/parent-masterclass-registration/>
Registrations close Wednesday, 19 July 2017
- Location:** Webinar. Instructions for connecting to the masterclass will be provided 2-3 days prior to the event.

About the Elevate Parent Seminar

This seminar provides parents with strategies to 'get on the same page as their children so they can keep the ball rolling at home'. Elevate has found that follow-up at home is crucial for behavioural change, as it reinforces the study skills gained in the Elevate program. The seminar also answers the big questions that parents have while navigating high school with their children.

Time Management

How parents help their child manage their time in an effective way? What should they be doing to help children get all their work done in time whilst still maintaining a balanced routine?

Study Support

What kinds of work are more valuable in helping to achieve higher marks? Presenters will discuss what good study looks like so parents can help their children work smarter.

Motivation

Sometimes the most difficult part of studying in high school is simply being motivated enough to do the work. This seminar will help parents understand the key drivers behind student motivation, and how to leverage these to help their child reach their potential!

Technology & Distractions

Technology can be a fantastic tool, but can also lead to unprecedented amounts of procrastination. What technology is useful in assisting study and what is just plain distracting?
